SPECIAL COLLECTION OF ASSORTED GLADS

Many folks desire a few "glads" to plant in the garden and do not care to fuss with the names of the varieties. For this purpose I am offering a special collection of named varieties not labelled. If you have a preference for certain colors, just mention it, and I will act accordingly.

AN OUTSTANDING GLADIOLUS KING WILLIAM

Introduced 1940—Originated by Wm. Schenetsky. I introduced King William because of its beauty and unsurpassed performance and because I feel that such a remarkable glad should be in everyone's garden. Hundreds of bulbs have had a most thorough trial and have outgrown Picardy in two fields during the past five years. Trial garden reports substantiate my experience.

King William is a soft salmon and apricot blending beautifully into a clear unmarked cream throat. It is a tall, healthy, vigorous grower, a great shipper or commercial as well as a super exhibition variety.

FOREWORD

In presenting this new 1941 list, I wish again to stress the fact that it contains the most dependable of the older standard varieties as well as the best of the newer ones. During recent years it has become increasingly evident that there is a growing demand for the graceful and beautiful smaller flowered gladiolus which lend themselves exceptionally well to vase and table decorations in an infinite number and variety of arrangements possible only with the small decoratives. In anticipation of this demand I have this year quite a superlative collection of these small decoratives of both American varieties and Imported English Hybrids. Again, I take this opportunity of extending a cordial invitation to you to visit my fields during the blooming season.

TERMS: Cash with order or a 25% deposit if future delivery is desired. I do not substitute but refund any part of order I cannot fill.

NO SINGLE ITEM FOR LESS THAN TEN CENTS.

SHIPPMENT: I ship any time. No orders for bulblets taken after April 1st, small sizes May 1st. On large orders, special quotations for the entire lot.
